

# YOUR BRAND EXPERIENCE PLATFORM

Take complete control of your in-store media solutions with Harmony - the world's first and only Brand Experience Platform. Access our mobile-friendly CMS and easily manage your Music, Messaging and Digital Signage. Supported by our robust and reliable audiovisual media player, you can drive all media elements of your brand experience in total harmony.

## THE EASIEST WAY TO MANAGE YOUR BRAND EXPERIENCE

Whether you want full control or simply want to let the platform take the reins, managing your brand experience has never been easier - thanks to Harmony. Login as often as you like and schedule content for any location, groups of locations or company-wide.

- + Centralized content management system
- + Manage Music, Messaging and Digital Signage
- + Mobile-friendly online monitoring
- + Secure, reliable technology
- + WiFi compatible
- + Simple plug-and-play installation, or let us install for you
- + Responsive support by phone and email

## HARMONY MUSIC

Choose from multiple programming options to create the perfect sound for your brand. Access hundreds of pre-designed programs in dozens of genres, or create your own branded mixes based on mood or seed tracks and artists. The possibilities are endless - and fully-licensed for business use.

## DIGITAL SIGNAGE

From Digital Signage and Menu Boards to Video Walls and Interactive Touchscreens - Harmony simplifies the way you manage your signage solutions. Upload assets and instantly update and schedule content for any number of locations.

## BRAND MESSAGING

Integrate Overhead Messaging with Music to create a fully-branded audio experience in-store. Keep callers on the line and highlight promotions with On-Hold Messaging. No matter what your messaging needs may be, Harmony empowers you to transform your brand voice into a powerful part of your Customer Experience.

# HARMONY ALL-IN-ONE MEDIA PLAYER

Enjoy unmatched reliability, seamless playback and ample storage with the Harmony All-in-One Audio & Visual Digital Media Player. Compact and easy to install, Harmony is energy and bandwidth efficient - and it's built to withstand even the most demanding business environments.

- + Maximum reliability - continues playing content in the event of internet disruption
- + Simple plug-and-play installation
- + Supports Music, Messaging and Digital Signage
- + Store up to 256 GB of content
- + Energy and bandwidth efficient
